## Dates Changed to October

The following letter addressed to the editor from Edwin C. Bell, secretary of the Drake Day association is self explanatory:

"I wish to thank you for the publication given us in publishing the recent articles regarding the Drake Memorial day celebration, which appeared in the oil columns of The Tulsa World. It is very kind of you now to be kind as to announce the date of holding the Drake Day association meeting in your city on Monday, October 14, 1920. Your character of committee files the day so that all oil men can be present and also for the reason that the earlier date August 27, is during the extreme hot weather in your latitude. I shall bring a lot of Pennsylvania oil region photographs to exhibit in your city during our stay there."

"I thank you most sincerely for your kindness in taking an interest in the matter of commemorating the birth of petroleum."

## From Garber

**Special to The World**  
(By KAY PETERS)

GARBER, Okla., June 23.—The Roxana Petroleum company No. 3 on Schroeder farm, a twin well in the southwest corner, southwest 18-22-4 west, is a 700-barrel well in the sand at 1,382 to 2,002 feet. This well when it comes in and before it was under control looked like a 3,000-barrel well. There was a big gas pressure with the oil and likely for the first few hours while out of control it did flow at the rate of 3,000 barrels.

New work started in this district includes more wildcats. Below is a list of "straw" not reported before.

The Rabbits Foot Oil company (of Iowa) No. 1 on the Brueggeman farm is timbers on the ground in the northwest corner, northeast 5-21-2 west. This location is a mile
